Queen Kong size is Approx. 6' x 16'. We recommend using Adobe Illustrator or Adobe Photoshop (or a program with similar design features). For best quality, all files being placed or used in the design program should be either 1/4 scale at 300 dpi or at full scale at 100 dpi. All text should always be converted to curves or outlines depending on the software being used and the color space CMYK. File formats accepted for final output are .eps, .pdf, .tif, or .psd. * Bus model used for event may differ from model shown here.
